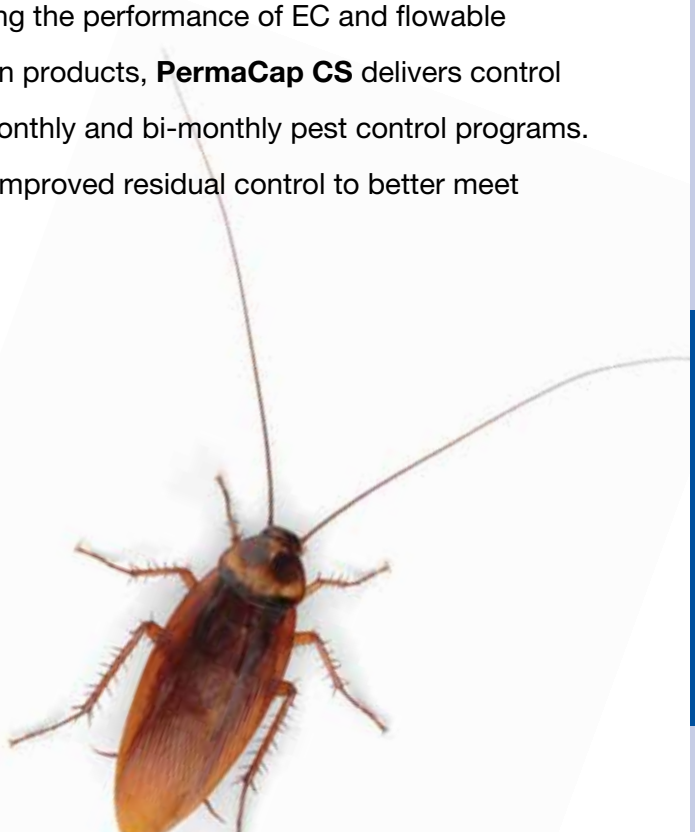
PERMACAP CS™
Controlled Release Permethrin

A microencapsulated permethrin spray that outperforms other EC and flowable permethrin and bifenthrin formulations.

BASF Pest Control Solutions introduces Prescription Treatment® brand PermaCap CS™ Controlled Release Permethrin — a microcap general-use spray that offers 30-60 day residual and porous surface effectiveness, for both residential and commercial settings.

Now you have the opportunity to upgrade to all the proven benefits of BASF Pest Control Solutions's SmartCap™ Technology that will allow you to effectively kill more than 50 pests – and reduce call backs from dissatisfied customers. By upgrading to **PermaCap CS** you'll enjoy the benefits of 30-60 day residual control, from a product that is effective on concrete and mulch without being absorbed. By significantly enhancing the performance of EC and flowable permethrin and bifenthrin products, **PermaCap CS** delivers control you can count on for monthly and bi-monthly pest control programs. It's an effective tool for improved residual control to better meet customer needs!



SMARTCAP™ TECHNOLOGY

PermaCap CS offers you all the benefits of SmartCap Technology – longer residual control and multi-surface effectiveness through enhanced permethrin performance.

BASF Pest Control Solutions
The Evolution of Better Pest Control

BASF
The Chemical Company

Designed for specific PMP requirements.

- For PMPs who service monthly or bi-monthly pest accounts
- For PMPs who want to upgrade from EC (emulsifiable concentrate) or FL (flowable) formulations to microencapsulation technology for enhanced residual
- For PMPs seeking a great value for effective, “cool-season” insect control

Beneficial features for both you and your customers.

- Features SmartCap Technology – the latest microencapsulation formulation science from BASF Pest Control Solutions
- Extends residual control of the active ingredient, permethrin, enabling it to work up to 60 days
- Effective on porous surfaces without being absorbed and lasts longer under adverse weather conditions
- Shortens contact time – microcapsules cling easily to pests, ensuring control
- Virtually odorless
- Lower mammalian toxicity compared to some EC formulations
- Kills more than 50 insects
- Residential and commercial label (no food handling label)

For complete details on PermaCap CS and BASF Pest Control Solutions’ complete line, call 800-777-8570 or visit PestControl.basf.us.

Effectively controls over 50 pests.
