

Victor[®] Roach Pheromone Trap

Introducing A New Technology in Roach Control!

M330 Victor Roach Pheromone Trap

- Patented German Cockroach pheromone attractant lures roaches from their harborage.
- Controls and detects—not just a monitor.
- Traps nymphs, adults and their eggs.
- Trap has been designed with 3 entry points, a silicone surface to prevent escapes and low profile to fit into small, tight corners.
- Most accurate early warning and detection device available.
- Excellent tool for an IPM Program.
- Backed by 5 years of research and field testing.
