

**Still the leader
in efficient fly control.**

The two reasons in fly control

Maxforce[®]
FLY SPOT BAIT

Maxforce Fly Spot Bait provides an unobtrusive way to control house flies both indoors and outdoors, including non-food areas of commercial food-handling establishments and animal facilities. Powerful attractants combine with the active ingredient imidacloprid to kill flies in

Ma
GRAN

Maxforce Granular Fly Spot Bait kills house flies in 60 seconds, luring them to death with four powerful attractants: an irresistible aroma, sex pheromone, color and light. To include applying this bait, simply place it in bait stations.
