

# Alpine® WSG Water Soluble Granule Insecticide

## EFFECTIVE

A nonrepellent that provides quick knockdown and control on many of the most common insect pests, including ants, bed bugs, fleas, house flies and German cockroaches.

## NONSTAINING

Dissolves into a clear solution that doesn't stain upon application.

## ODORLESS

Unlike many other general insect products, it has no discernible odor.

## EASE OF PACKAGING

Simply tear the package open, empty it into your spray tank, and throw the package in the trash. No rinsing required.

## NO SETTLING

Once mixed, it stays suspended and won't clog equipment.

## NO CLOGGING

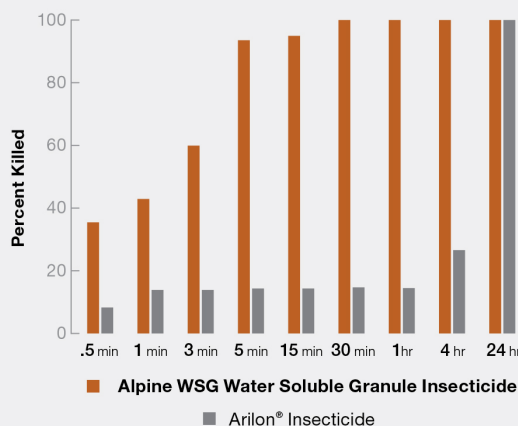

Because it dissolves completely, you won't have to worry about clogging your spray equipment.

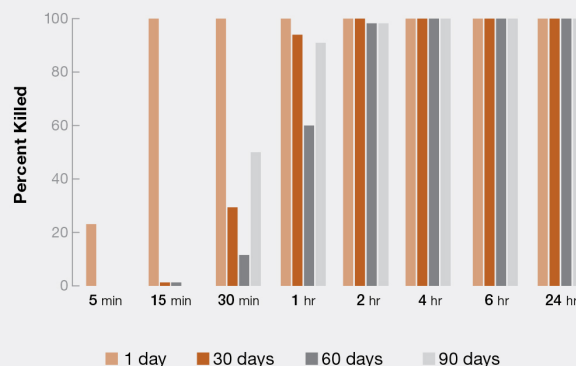

**Alpine WSG Water Soluble Granule Insecticide**  
0.05% concentration is shown without further agitation. Photo taken 1 hour after solution was prepared. No settling occurred and the liquid remained clear.

**Alpine WSG Water Soluble Granule Insecticide: Excellent Control of Odorous House Ant**

**Dinotefuran: Excellent Control of Bed Bug 90 Day Aged Surface Test**

\* See product label for full use site listing.

\*\* Dinotefuran, the active ingredient in Alpine insecticides, has been granted Reduced Risk status for public health use by the EPA.

Always read and follow label directions.

## USE SITES

### 1. Attics and Eaves

Can be applied in attics, on eaves and on other structural surfaces, both indoors and outdoors.

### 2. Exterior Hard Surfaces

Can be applied to impervious surfaces, such as sidewalks, driveways, patios and porches as a surface application.

### 3. Full Exterior Side of Buildings

Can be applied as a full surface application to all exterior sides of a structure (e.g., siding).

### 4. Broadcast Interior Treatments

Can be applied indoors to flea infested or potentially infested areas (e.g., rugs, floors, carpets, upholstered furniture, pet beds and pet resting areas).

### 5. Off Structure

Can be applied to yards as a broadcast application for ants and fleas.
