

## NEW MAXFORCE® FLEET™ GIVES YOU FAST, EFFECTIVE ANT CONTROL, INDOORS AND OUT.

Get the powerful ant control you've come to expect outdoors in a formulation for indoor use. Introducing Maxforce Fleet, the fipronil-based ant gel that works inside and out. The new, thicker formula stands up where you need it.

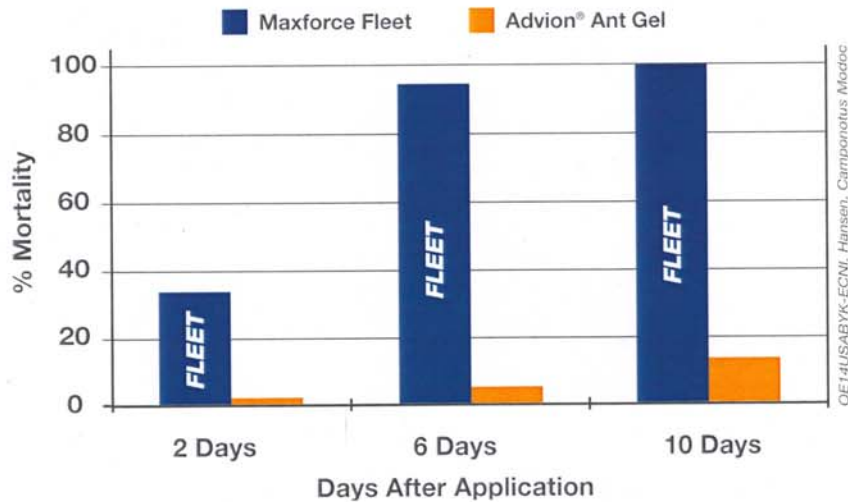

- Contains fipronil, the active ingredient of choice for fast, effective ant control
- Long-lasting, fast-acting
- Moist, carbohydrate-rich gel
- Formulated for ant trophallaxis, which allows foraging ants to return to the colony and feed the bait to larvae and the queen(s) so entire colony is killed

### NEW, THICKER FORMULATION

The new, thicker consistency of Maxforce Fleet enables it to stay where it's applied – even on vertical applications.

### OUTSTANDING PERFORMANCE ON CARPENTER ANTS

### EFFECTIVE ON DIFFICULT-TO-CONTROL ANT SPECIES

Maxforce Fleet offers broad-spectrum ant control, including notoriously difficult-to-control species.

Argentine

Carpenter

Odorous House

## ONLY MAXFORCE OFFERS A TOTAL SOLUTIONS PACKAGE FOR ANT CONTROL

Maxforce Ant Solutions address different ant species, food preferences and environment. In addition to Maxforce Fleet, be sure to check out Maxforce Complete and Maxforce Quantum for your specific ant control needs.

- Maxforce Fleet – fast colony control in a moist gel bait formulation
- Maxforce Quantum – long-lasting liquid gel formulation, rich in carbohydrates
- Maxforce Complete – nutrient-balanced granule formulation, rich in proteins
