

“Precision Targeted”

Introducing PT[®] Fendona[®] Pressurized Insecticide

Part of our pressurized technology portfolio, where PT stands for Prescription Treatment and so much more.

The power of Fendona meets the precision of PT in new PT Fendona Pressurized Insecticide, giving pest management professionals a fast knockdown of key pests, a flexible label, and long-lasting control of house flies and bed bugs even in hard to reach areas. Featuring alpha-cypermethrin—an active ingredient 3X more powerful than cyfluthrin—**PT Fendona Pressurized Insecticide** is registered for use in residential and outdoor areas, as well as food handling establishments. It is also compatible with System III for the ultimate in precision and professionalism.

Fast and long-lasting: Kills key pests fast with excellent residual activity on houseflies and bed bugs

Flexible: Labeled for 60 arthropod pests and 65+ use sites, including residential and outdoor areas, as well as food handling establishments

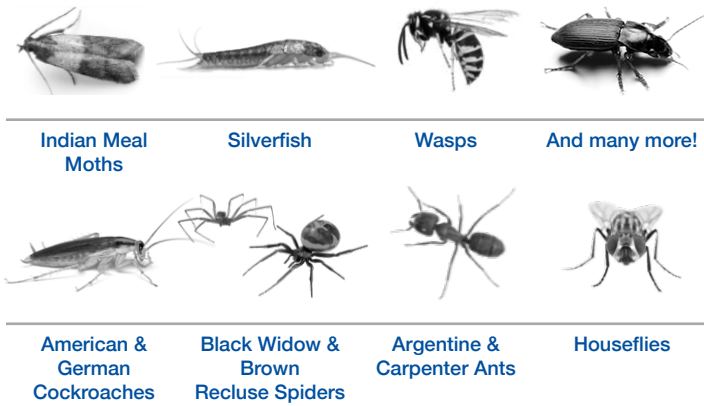

Efficient: Contains less active ingredient than other pressurized products while still killing scores of labeled pests, compatible with System III
