# Vaporize them with Nuvan Prostrips

Pests don't have a chance near Nuvan® Prostrips®. They are the only product containing DDVP available to the professional pest management market for residential use. Simply place this effective strip in an enclosed area and the slow-release vapor controls flying and crawling pests including flies, moths, roaches and more. It works continuously for up to four months with no odor and no mess.

The vapor action of Nuvan Prostrips is effective in difficult-to-reach areas such as crawl spaces, attics and other hidden or enclosed areas.

*Nuvan Prostrips are available in convenient packaging. The large strips come in 3 to a package, 6 packages to a box, the small strips come in 12 to a package, 6 packages to a box. Cages are packaged separately.*

### Unique Delivery and Mode of Action
Nuvan Prostrips deliver the active ingredient DDVP through a unique vapor action providing lasting protection from pests for up to 4 months.

### Convenient and Easy to Apply
Each Nuvan Prostrip is supplied with a convenient plastic cage that may be placed or hung in enclosed areas providing continued protection for up to four months after a single application. Nuvan Prostrips are available in small and large strip size. Small strips can be used for areas of up to 300 cubic feet and large sizes for areas of up to 1,200 cubic feet.

### Treat Tough to Reach Areas Once
The vapor action of Nuvan Prostrips provides lasting protection in difficult-to-reach areas such as attics, basements, crawl spaces, closets, pantries, sheds, garages, boats, RVs, vacation homes, etc.

### Cost Effective Pest Management
The vapor action of Nuvan Prostrips provides continuous insect protection for up to four months for just pennies a day.

### Odorless and Colorless Protection
There are two things your customers won't notice in areas protected by Nuvan Prostrips—pests and pesticide odors. Nuvan Prostrips are effective and yet the vapor action is virtually non-detectable by humans and pests.

### Effective Against Many Common Pests
Nuvan Prostrips are effective against the most common crawling or flying pests.
