

*Goodnight. Sleep tight.
Don't uh, well, just goodnight.*

**Now you won't leave any
unwelcome guests behind.**

Suspend[®] SC
with DeltaGard

Bayer Environmental Science

Broad-spectrum control

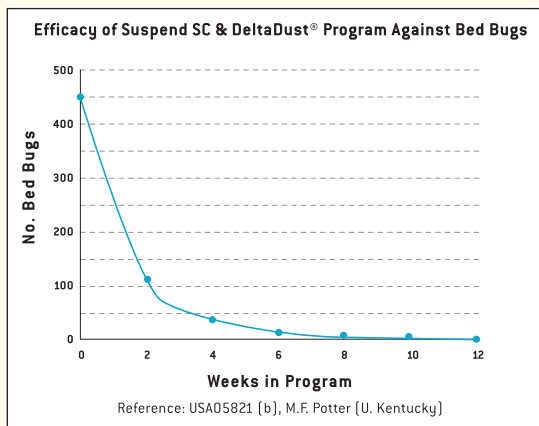

- Broad-spectrum control of more than 50 nuisance pests
 - ❑ Bed bugs, spiders, mosquitoes, ticks, cockroaches, ants, fleas, lice, yellowjackets, wasps, scorpions, flour beetles, grain borers
- Its flexible label means it can go places many competitors can't
 - ❑ Indoor/outdoor residential areas, industrial and institutional locations, food processing plants, cafeterias, foliage, woodland edge, mulch and leaf litter
- Works at low and high concentrations
 - ❑ Range as low as 0.0015% and as high as 0.06%

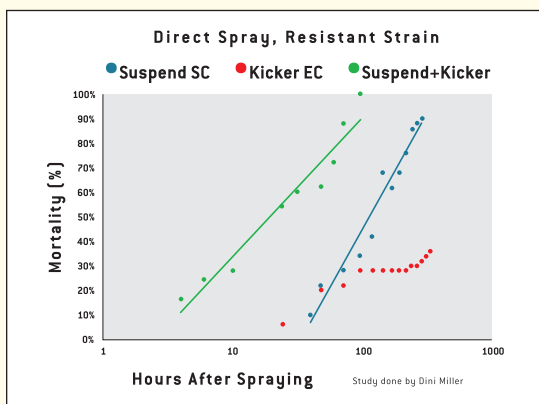

#1 against bed bugs

- Suspend[®]SC is the only product to provide over 95% control of bed bugs in independent university field research.
- Goes places others can't. Labeled for use on mattresses, upholstery, furniture, box springs and carpets. These are the areas where bed bugs pose the biggest problem.

Resistant bed bugs?

- A tank mix of Suspend SC + Kicker[®] provides the fastest mortality of a resistant strain of bed bugs
 - ❑ Just one more solution PMPs can use to kill bed bugs and provide a more comfortable environment for their customers
- No need to worry – Suspend SC tank mixed with Kicker will get the job done
 - ❑ Kicker is an excellent synergist that helps provide a fast knockdown and control of insects
 - ❑ It's also registered for use indoors and outdoors
- Apply on upholstery, furniture, rugs and carpets

Our promise

When you use Suspend SC and Kicker, you're Backed by Bayer™ and all the science and technical support that come with it. If you have any question at any time, visit BackedByBayer.com or call us at 1-800-331-2867.
