PT® brand  
Advance 375A  
Select Granular  
Ant Bait

MAKING PEST MANAGEMENT MORE PROFITABLE

## PT® Advance® 375A Select Granular Ant Bait

### A New Selection

PT brand Advance 375A select granular ant bait is designed to control Argentine, pavement and other hard-to-control household ants. By using select technologies from PT brand Advance granular ant bait and Advance carpenter ant bait, we have formulated a bait irresistible to finicky ants with voracious appetites.

### Efficacious to the End

PT brand Advance 375A select granular ant bait uses special proteins and carbohydrates combined with a unique corn grit matrix that quickly entices these “select” ants to readily take the bait back to the colony. Once the bait is consumed, the reliable active ingredient, abamectin B<sub>1</sub>, quickly reduces populations to acceptable levels.

### Colony Elimination

Abamectin B<sub>1</sub> is a GABA inhibitor that interferes with the normal functioning of an insect’s nervous system and begins affecting ant populations within 24 hours. This type of insecticide allows the ants time to take the bait back to the nest where it is distributed throughout the colony. Reproduction of the colony halts once the queens have been eliminated and the workers, who carried the bait, perish.

### Universal Appeal

PT brand Advance 375A select granular ant bait quickly attracts a wide variety of ants making it an excellent choice as the primary ant bait in your toolbox. No crawlbacks, no callbacks.

### More Profitable

PT brand Advance 375A select granular ant bait is economical to use for large ant colonies.

- Quick acceptance of the bait
- Economically priced to control large colonies
- Easy to apply shaker bottle
- Easy to apply with “no clumping” spreader
- Reduces callbacks

### Features and Benefits

- Highly efficacious for quick control
- Satisfied customer
- Special corn grit size that is easy for ants to take back to the colony
- Fewer callbacks
- Easy to apply with no clumping
- Convenient and economical
- Unique blend of proteins and carbohydrates
- One product for a variety of ant species

### Packaging

PT brand Advance 375A select granular ant bait:

<u>Product Code</u>	<u>Size</u>	<u>Units/Case</u>
02-0375	8 ounce shaker bottles	12 shaker bottles/case
02-0375-1	2 pound bottle	4 bottles/case
