

MAVRIK® PERIMETER

More control for your mosquito arsenal

Mavrik® Perimeter, from the makers of Altosid® and Zenivex® products, kills the adult mosquitoes that infest areas around the perimeters of residential and commercial buildings. The active ingredient, tau-Fluvalinate, provides quick knockdown and residual without staining or lingering odor. Mavrik® Perimeter is an easy, cost-effective way to achieve additional coverage for ULV and larviciding efforts.

FEATURES

- The broad-spectrum pyrethroid tau-Fluvalinate
- Provides immediate knockdown of adult mosquitoes
- No visible residue or lingering odor
- Long lasting residual
- Easy to use
- Water based formulation
- Efficacy at a variety of application rates

BENEFITS

- Won't harm ornamental plants or shrubbery
- Dried residues are non-toxic to bees
- Kills the mosquitoes ULV treatments miss
- Controls mosquitoes resting on treated surfaces
- Controls over 35 other pests
